Conquer the Globe: National Geographic-Lindblad Expeditions

When it comes to transformative, purpose-driven travel, the GlobeTrot Guru proudly shines a light on **National Geographic-Lindblad Expeditions**. These voyages are engineered for the genuinely curious, blending world-class scientific exploration with supreme comfort. What makes these journeys truly unique is how they engage every generation. Through the complimentary **National Geographic Explorers-in-Training** program—led by certified field educators—adults and the under-18 crowd embark on their own hands-on discoveries. While adults dive deep into photography workshops, historical lectures, and natural history talks, younger explorers participate in interactive, activity-based field assignments designed to inspire the next generation of conservationists and scientists.

Upcoming Voyage Radar: Winter & Summer 2027 Highlights

Whether you are looking to cross the Drake Passage this winter or chase the Midnight Sun next summer, here are some of the incredible departures available for booking:

- **Antarctica Direct: Fly the Drake Passage (9 Days):** Skip the open ocean crossing and fly straight to the white continent.
    - *Confirmed Winter Dates:* January 2–10 and February 6–14, 2027.
- **Quest for the Antarctic Circle (15 Days):** An epic, deep-south expedition for true polar adventurers.
    - *Confirmed Winter Dates:* January 11–26 and January 25–February 9, 2027.
